

Standards Change Request

Add "PPI" to CURATING_NODE_ID

SCR3-1120.v1

Provenance:

Date: 2007-06-26

Author(s): Todd King (PPI)

Working Group:

Problem:

The current list of standard values for CURATING_NODE_ID does not have a generic value for the PPI node. The current value used by the PPI node is "PPI-UCLA". This is inappropriate for some situations.

Current Urgency:

This change is needed to complete the catalog reconciliation for PPI.

Proposed Solution:

Add the value of "PPI" to standard value list of the CURATING_NODE_ID.

Impact Assessment:

This change has no immediate impact. We plan to change all instances of "PPI-UCLA" to "PPI" in the catalog. This should not have an impact on existing tools.

Additional Information:

Requested Changes:

Changes to standards reference: none

Changes to tools: none

Changes to data dictionary: Add "PPI" to the list of standard values for CURATING_NODE_ID.
